INSTRUCTIONS.—A late number of the *Union* has the following: Commissioner Wilson's instructions to Registers, Receivers and Surveyor-Generals, are to acquaint themselves with the local mining customs and usages of the respective mining districts; to preserve the record of individual claims, which, together with those of incorporated companies, may be entered in any district Land Office, with the description of the vein, lode or part thereof; that notice of an intention to apply for a patent shall be published in the nearest newspaper after the survey is executed; certificates shall be filed that the premises have been paid for at the rate of five dollars per acre; a patent may then issue, but not for more than one vein or lode; the rectangular method of surveys shall be maintained, conforming to the township line or varying to suit local circumstances, by district deputies, under contracts, as in the survey of public and private lands, but paid at the rate of two dollars per acre. The extent of location, from the date of the passage of the Act, shall not exceed two hundred feet along the vein for each location, with additional claims for discovery, and with a reasonable quantity of surface for convenience of working, fixed by local rules, not exceeding three thousand feet for one claim or for any corporation. The remaining provisions were sent subsequently.

IMPROVEMENT IN THE REFINING OF GOLD AND SILVER.—Andrew Mason, melter and refiner in the New York assay office, has made an improvement in the mode of parting gold and silver, which is to be introduced into all the branch mints. It consists in so adjusting the metals for granulation that the pure gold, instead of gold bullion, shall constitute one-third of the mixed metal, and secondly, in boiling the gold in sulphuric acid, after one treatment in nitric acid. The one charge of nitric is to be made larger than the first in the old process, 20 per cent. less than the amount in both, while the consumption of fuel is greatly reduced, and much disagreeable labor removed, It is estimated that the saving in one year's business would amount to $70,000, rating the cost of mining in California at 50 per cent. greater than in New York. The economy in the above mode of parting, consists in the employment of a less quantity of nitric acid than has heretofore been used, which is replaced by sulphuric acid—the latter costing only about one-third as much as the former.

ANOTHER PETROLEUM REFINING COMPANY.—An association, to be known as the "Pioneer Petroleum Refining Company," has filed articles of incorporation, with a capital stock of $50,000; Charles Stott, David Hunter and Chas. H. Wakelee, constitute the Board of Trustees. Their principal place of business will be in this city. This company proposes to conduct the business of refining petroleum, on a principle quite new, or at least differing very materially from any process now in use on this coast. Steam is their chief heating agent employed, and is applied directly to the body of the crude oil itself, and gradually increased in temperature and pressure, as the oils to be driven off become more and more heavy. It is claimed that by this process the oil comes from the still ready for use, requiring no subsequent refining or working, either by acids or any other agent, thereby greatly reducing the cost of the process. If this principle succeeds, it must result in a very material cheapening of the price of coal oil.—*Mining Press.*

THREE DEATHS FROM EATING PORK.—On Thursday last, Mr. Henry Berner, living in the upper story of No. 213 Columbia, between Plum and Central avennes, purchased two hogs. On Friday and Saturday the family partook freely of the meat, and during Saturday night the entire family, five in number, took suddenly sick, and at eleven o'clock Sunday morning an old man of seventy years, Mr. Berner's father-in-law, whose name we could not learn, and a daughter and son of Mr. B., aged respectively five and three years, died. Mrs. Berner was also taken sick, and narrowly escaped death. Mr. Berner had a slight attack, but not seriously. The sudden illness of the entire family, and death of three, naturally induce the inquiry as to the cause. In the neighborhood the impression prevails that the pork was that of diseased hogs. The physician declares their disease to be the worst character of Asiatic cholera, brought on, no doubt, by too freely eating of pork.—*Cincinnati Enquirer, Dec. 27.*

GOOD PLACE FOR HIM.—It is said that at the expiration of McDougall's Senatorial term, the President will send him as an ambassador to the Pope. No one requires *spiritual* influences less than McDougall.

THE TEST OATH.—McRuer, of California, bolted the test oath, by voting against it. He was one of four Republicans to vote that way. That will let him out of Congress on and after the fourth of March, for we do not believe that with this vote staring them in the face the Union men of the First Congressional District will renominate him. McRuer has got through all his bills and had no more favors to ask of the majority, so he could afford to follow his natural bent. He can do no harm, and it is better that he should be known now than hereafter. And this is the man whom the Republicans of San Francisco and the lower counties nominated over the head of Cole, and sent to Congress to represent them! They made a pretty mess of it, and deserve for their folly just such treatment. All the Federal officials in San Francisco joined in the raid against Cole and in favor of McRuer, and this is how he repays them, by sustaining the President's policy. If there is any hole big enough down there, they should seek it and hide themselves from the face of their fellows.—*Bee.*

THE NEW SENATORS.—The recent elections by the Legislatures have sent to the United States Senate, from Nevada, J. W. Nye; Pennsylvania, Simon Cameron; Indiana, Governor Morton; Illinois, Lyman Trumbull; New Jersey, —— Frelinghuysen, Missouri, Charles A. Drake; Kansas, Pomeroy and Ross. And they are all opposed to the unconstitutional policy of the President.

# SEMI-WEKELY ENQUIRER.

**WEDNESDAY, JANUARY 30, 1867.**

RECREANT.—It is always a source of sorrow when compelled to condemn where the people had expected to applaud. Yet, notwithstanding the duty to do so be a disagreeable one, nevertheless it is one which should not be shrunk from when justice and the bad faith of the subject imperatively require it. One of our Representatives in Congress, McRuer, has demonstrated by his vote upon an important party and precautionary measure that he can no longer be relied upon in questions of vital party and patriotic issue. In the House, when the vote was taken upon the test oath question, Mr. McRuer, claiming to represent the loyal people of California, cast his vote in opposition to that measure. This should settle his claims to a renomination by the people of this State at once. We want no backing and filling now. There are great and vital questions to be settled, and it is as necessary now as during the darkest days of the rebellion that the country know its friends and are able to place the fullest and most complete confidence in their integrity and adherence to principles and party measures deemed necessary to adjust the difficulties existing between the Government and the late rebellious States. McRuer is not the man—by his late actions—to receive that confidence so necessary to the harmony that should exist between the people and the people's servant. Of all our representatives he has proven himself the least deserving of that honorable trust which was so generously given two years ago.

UNCERTAIN.—The arrival of stages by either route across the mountains is now a matter of beautiful uncertainty, owing to the terrible condition of the roads.—*Virginia Union.*

When we come to consider that it has been proverbial with the Virginia and Gold Hill papers to lose no opportunity in thrusting the Placerville route upon the attention of the traveling public as *the* best and easiest route, the above will be looked at as more than an ordinary newspaper item. The paper making the assertion that the "arrival of the stages by either route across the mountains," fully substantiates what we have always contended: That the Dutch Flat route was naturally the better of the two, and only needed the time to allow packing in order to convince all of its superior merits over those of greater pretensions. The Dutch Flat route has never received a good word from the Nevada side of the mountains save when the truth was so apparent as to be distinctly seen by every casual observer, and *then* so ambiguously worded as to seem rather a contemptuous sneer than a word of approval. However, we are not particularly anxious for loud-mouthed advocates from the other side; we have *the* road, and its apparent superiority over all others will eventually divert the bulk of the travel to it.

CONGRESSMEN.—The Calaveras *Chronicle* of a late date mentioned that a letter had been received by a gentleman residing in Mokelume Hill from Hon. William Higby, stating that, if the people of his district were satisfied with his services and were willing to endorse him again, he would accept of a nomination for a further term. We do not believe that a man could be found who would better represent the sentiments of the people than Mr. Higby, and we hope his name will not only be kept before the loyal masses, but that their representatives in convention will unanimously select him as their standard-bearer during the next campaign. He has been weighed in the balances and found worthy, and we believe in the theory that when the people are fortunate enough to secure the services of a fearless, honest and capable servant, it is their duty to retain him. It would be suicidal to do otherwise.

"A FIZZLE.—The great Dutch Flat railroad is a lamentable failure, as long as there is any snow upon the mountains. Not a passenger or freight train has gone above Colfax for the past fortnight. Better tear up the rails, and move across the mountains by the Big Meadow route from Red Bluff.—*Red Bluff Independent.*

You assert the above as though you knew what you published to be true, when nothing that you could have said would probably have been farther from the actual facts. There has not been a day, save Sundays, that the passenger cars of the Pacific Railroad did not run above Colfax, and but a few days that they did not run to this place. Where did you get your information?

WE acknowledge the receipt of an invitation—ought to have done it before—from the proprietors and editors of the *Dramatic Chronicle* on the occasion of that paper entering upon its sixth volume, and removing into their new rooms, 606 Montgomery street. We were not able to be with you, gentlemen, but our best wishes and kindest regards you had on the rare occasion of your feast. May you continue to prosper as you excoriate the guilty, and protect the worthy. Yours, truly.

SHERIFF POOLE arrested another Chinaman on Monday, who was engaged in the robbery of Jamison, at Yankee Jims.

## MORAL GRAVITATION.

The world moves. We mean the world of ideas. Nothing is perfected, but all is progressive. Not less in a more perfect adjustment and accord of divinely appointed relations of man to man, as imperfectly realized in civil government, than in art and science. Slowly, silently, step by step, with the ever repeating cycles, enlightened nations are working out the problem of human liberty of disenthralment from the oppressive, intolerant forms of hereditary dynasties. Governmental establishments but imperfectly suited to the advanced social, moral and intellectual condition of modern civilization are crumbling away under the pressure of moral sentiment.

Six short years ago, through the providence of Him who "sees the end from the beginning," it became the imperative duty of the American people to assert and maintain, in all its length and breadth, their "national unity" problem and civilization, against the assaults of a formidable, tyranical and inhuman power, that, through compromise and sufference, had grown to greatness within the Republic.

The landed, privileged, governing classs of Great Britain, and the Emperor of France, disregarding their history and tradition, and in abnegation of the moral sentiment of the people, undertook, through the moral influence of the nations they misrepresented, in favor of the States in rebellion. Indeed, the former went so far as to furnish material aid, contrary to the laws of neutrality; while the latter, ignorant of the all-controling moral sentiment of the age, of the vital power of the great underlying "idea" of human liberty pervading the Republics of the New World, promptly announced his purpose to restore the "pristine" vigor and civilization of the Latin race on this continent," undertook, with a mere splinter, the fossil remains of a form of government the "European massess" are repudiating—to construct on the ruins of a contiguous sister republic a barrier to check the further spread of Anglo-American ideas and Anglo-American education and civilization.

The English aristocracy, as also Napoleon, failed to carry the moral sentiment of the people with them. Not only so—they evoked opposition, awakened the latent sentiment of liberty in the people, forming the fires of liberty at their own doors.

By recent European advices, we learn that the English massess, under the leadership of John Bright, have inaugurated a radical reform. They demand the restoration of the ancient Borough household franchise, which by their constitution has existed for centuries in parishes and municipal corporations; by which "the great body of the people would be invested with political power."

The late Ministry refused to support the reform bill, by which only some 200,000 would become invested with the franchise. The people now demand that it shall be extended to the millions. Immense monster meetings have been held to give demonstration to the determined will of the people to be invested with the franchise and to share in the government. The great landed class are said to have become alarmed.

If we now cross the channel and enter France, we find the autocratic power of Napoleon has given way to the demands of the people, securing important privileges and greater freedom of debate. By a late decree, the address of the Legislative body in reply to the speech from the throne is to be discontinued, and the deputies will be permitted to question the government directly. Greater freedom of public assemblage is granted, and more unrestricted toleration to the "Press." The "decree" concluded by saying: "These reforms will now crown the edifice of a state founded on the national will."

Thus, while French transports are conveying the remains of the French army of conquest in Mexico in humiliation to France, Napoleon has been compelled to intensify that humiliation by making important concessions to the people. No enlightened nation stands isolated. Each influences and is influenced by every other. The acts of the rulers of a nation are weighed by the great moral tribunal of the civilized world, and have a reflex as well as an outward influence on the destiny of nations. The great law of moral gravitation holds, and, as in physics, the heaviest body, the rights of the people, are tending slowly but surely to the centre.

GEN. B. F. BUTLER has not shown his usual amount of discretion of late, as the following item will show:

"General B. F. Butler has sued Brick Pomeroy, of the La Crosse *Democrat*, for libel, claiming $100,000. What nonsense! Unless Brick Pomeroy's exchequer is in a healthier condition than editors' usually are, we wouldn't give Butler ten cents for the demand if he gains his suit."

The idea of suing an editor of a Democratic paper for libel is one of the silliest things he was ever guilty of. It admits that they *can* libel, when such is not the case.

THE Meadow Lake *Sun* says that snow is but seven feet deep at that place, and that the trail is now open for sleighs from that town to Cisco.

# SEMI-WEEKLY ENQUIRER.

NEARLY FINISHED.—The mile and-a-half of ditch which was being built by Capt. Gardner in order to bring the water to this place and which he was obliged to build on account of the sliding condition of the ground over which he before essayed to place a flume, was almost completed when the last storm set in; how far the storm injured the new ditch—if at all—we have not been able to ascertain. Our miners may, however, rely upon one thing, that as soon as energy and industry can possibly finish the work it will be done, when they will be abundantly supplied. We hear it, as the opinion of those who have heretofore closely observed the seasons, that no winter has been more favorable for the successful prosecution of mining operations than the present, and that the water and snow which has fallen to the present date has been sufficient to furnish water for mining porposes to a late day in the fall.

CLUB.—We are informed that the young ladies and gentlemen of this place have organized a dramatic club for their mutual benefit and amusement. They have already commenced rehearsing their first pieces, and will give their first entertainment in a short time. Their first effort, we learn, will be the beautiful play of the Stranger. We have an abundance of material to make some of the best histrionic delineators in the State,—a little judicious instruction is all that is needed to bring it out.

BURSTED.—Last week the large iron pipe laid down last fall at a considerable expense by the Dutch Flat Water Company, again bursted. This time, we learn that the pipe was quite filled when the great strain caused by the immense pressure burst the pipe badly, which will cause some considerable delay before it can again be used. Our informant is of the opinion that the material of which the pipe is made is too light, and that the purposes for which it was constructed will not be answered until heavier iron is used.

ALL RIGHT.—The Yuba Ditch which convey the waters of the South Yuba to the miners at Gold Run and vicinity continues right side up. This is owing either to the substantial manner in which the ditch was first built, the experience and foresight of the Superintendent, Mr. J. Holmes, or the good luck of the owners, we don't know which. At any rate the ditch is all right and has not been obstructed by snow, land slides or anything of the kind but once and then but for a day or two.

SAFETY LAMPS.—Since the explosion of the gas in the tunnel at Little York the proprietors have procured safety lamps for the purpose of working their tunnel. The persons injured we learn are improving rapidly and will be able to attend to business in a few days.

SEVERE ON DELONG. — The Calaveras *Chronicle* of the 26th, in speaking of the recent election of Hon. J. W. Nye to the United States Senate by the Nevada Legislature, says:

"We are informed by telegraph that Hon. James W. Nye has been re-elected to the United States Senate by the Nevada Legislature, by a vote of 22 to 25. His competitor for Senatorial honors was Tin Whistle Charley DeLong, a man who is about as well qualified for the position he aspired to as we are—a regular squirt."

SAD AND FATAL ACCIDENT.—We learn from a gentleman over from Colusi yesterday, says the North *Californian* of the 25th, that the day before two children of a Mr. Williams who lives between Colusi and Ashton, were playing together and the oldest, a boy about five years of age, picked up a derringer pistol and was handling it, when his mother observing him, took it away; after examining it, and finding no cap on it, and supposing it not to be loaded, handed it to him again. He immediately went up to his little sister, and exclaiming "I'll shoot you," pulled the trigger and shot her through the head, killing her instantly.

The report that it relies upon mineral substances for its active properties are wholly false.

The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters, Consultation Office, 340, Washington street, San Francisco. Dec3m

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

A NEW AND GRAND EPOCH IN MEDICINE.—Dr. Maggiel is the founder of a new Medical System! The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all-healing Salve. These two great specifics of the Doctor are fast superceding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. All Ulcerous and eruptive diseases are literally extinguished by the disenfectant power of Maggiel's Salve. In fact, it is here announced that MAGGIEL'S BILIOUS, DYSPEPTIC AND BLOOD PILLS cure where all others fail. Which for Burns, Scalds, Childblains, Cuts and all abrasions of the skin MAGGIEL'S SALVE is infallible. Sold by J. MAGGIEL, 11 Pine street, New York, R. H. McDonald & Co., San Francisco, and all Druggists, at 25 cts. per box.

## MEDICAL.

## FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco, Rooms No. 9, 10, 11, first floor, up stairs entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urotha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writign or the society of friends, etc, The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.

Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

### Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to Dr. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., etc.

**PRIVATE MEDICAL INSTITUTE,**
N. E. Corner of Kearny and Jackson Streets,
SAN FRANCISCO.

*The Great Eradicator of Special complaints, formerly of Locke Hospital, London, Eight Years in Sacramento, and the last Four Years in San Francisco.*

### DR. TOZER'S

Experience is of forty year's standing, and during that time he has met with unparalleled success in the treatment of all those diseases generally known as Venereal or Chronic.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering: Nervous Deblility, Loss of Memory, Pain in the Limbs and Back, Palpitation of the Heart, Trembling of the limbs, Headache and an aversion to general society, especially that of females. There are a great many more, but these are sufficient, and should you be suffering from any of them, call on Dr TOZER, and he will cure you in a short time, without any interruption to your business—or state your case by letter, and there will be no occasion for your calling at the office.

**Stricture of the Urethra**
Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourself of its terrible results. The worst cases cured in a few days.

**Venereal Diseases,**
In all their various forms, either Primary, Secondary or Hereditary, completely eradicated from the system. Your constitution being restored to perfect health, there will be no danger of handing down to your children that terrible disease known as Scrofula

**Syphilitic Disease,**
As it presents itself on this coast, is of a more formidable character than that seen in the Atlantic States or Europe, arising from the fact of its being a compound of Spanish, Chinese and Sandwich Island disease. Those of you who have visited the two countries no doubt have seen the dreadful effects of it on the native and foreign population. It requires altogether different modes of treatment.

**The Old Formulas**
Of Ricord, Acton and Bostwick, are of little account, except to dry up the disease on the surface, leaving the poison in the blood, which, sooner or later, will show itself as a secondary disease in an aggravated form. These facts I have learned by experience, and think I can say without boasting, that I have seen more practice in these diseases than any other physician in San Francisco, dating, as it does, from 1849. It becomes you, therefore, to think well before you employ a physician. Who is the proper one to consult? An old experienced one, or one who has recently settled among you?

My plan is purely vegetable, destroying the disease and purifying the blood so that there is no danger of secondary symptoms.

**Rheumatism, Neuralgia,**
And diseases arising from the use of Mercury, such as pains in the skin bones, swellings of the different joints of the body, running sores, etc., and impurities of the blood, cured in a short time by the use of my VEGETABLE MIXTURES, known only to myself.

**Seminal Weakness.**
Should you be afflicted with any of the following symptoms, such as weakness of the Back and Limbs Pain in the Head, Dimness of Vision, Nervousness and General Debility, Loss of Memory, Confusion of Ideas, and Depression of Spirits, Evil Forboding, Self-distrust, and an aversion to society, consult DR. TOZER at once, and he will restore you to perfect health.

**To Females.**
When you are afflicted with Weakness of the Back and Limbs, Head, Loss of Muscular Power, Palpitation of the Heart, Irritability, Nervousness, Extreme Urinary Difficulties, Derangement of the Monthly Sickness, Sterility, and other diseases peculiar to females, consult DR. TOZER, and you will receive particular attention. Let no false delicacy prevent you, but apply at once, and save yourself from painful suffering and prematare death.

My rooms are so arranged that there is no danger of exposure, and of meeting any one save the Doctor

My FEMALE MONTHLY PILLS were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my office.

SAN FRANCISCO, June 1, 1866.

*Dr. Chas. H. Tozer:*—Dear Sir: You will excuse me for not writing to you sooner. You will please remember me as the individual who called on you for assistance about a year ago. The roof of my mouth had completely rotted out, and my palate dropped and there remained, stopping up the passage so that I could hardly eat. You remember you cut it out at once, which relieved me immediately, and I was enabled to swallow my food, and in a short time began to improve. I took your medicine, and followed your directions for several months. You finally succeeded in stopping the disease, saving my nose and upper lip, though you frequently cautioned me about losing it. I continued to improve until you finally recommended me to go into the country, and before going, by your advice, I had a cast taken of my mouth, in order that I could have a plate made for me to enable me to speak so as to be understood, and am now using it. My eternal thanks are due to you for the perseverance and skill that you displayed in my case; and I have to thank you for my restored health, and even my life, as I was very near bleeding to death several times from the nose. I am now in Sacramento City, enjoying good health, and I shall recommend all my friends to call on you should they be so unfortunate as to require assistance; and I would advise all persons to avoid certain scientific doctors in your city, for they will send them to a land from whence no traveler returns.

With my best wishes for the success of both of you, I remain, yours, etc., S. S. T.

### TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Disability, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public prtronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

DR. DOHERTY would call attention to the following certificates from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary Public.

The welfare of society imperiously demand their publicity and they are given more to warn the unwary than to sound the praise of a Physician, of whom hundreds of like cases can be cited during a practice of more than fifteen years.

DR. DOHERTY—Dear Sir: I feel my health so fully restored, that in common gratitude, I believe I should make you some written acknowledgement for your valuable services—particularly as your fee was small for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best, (some of whom have a large number of titles,) I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the Stricture is all removed, and my general health is better than it has been for years.

In conclusion, I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my address and call and see me. (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease I used a large amount of the preparations advertised as an infallible cure for Gonorrhœ, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours,
L—— H——.

**Seminal Weakness**—A Sworn to Certificate of a most Remarkable Cure of Spermatorrhœa.

A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhœa," or Seminal Weakness, the result of self-abuse, but till 1855 experienced but little trouble or inconvenience. In that year however, I had Seminal Weakness to an alarming extent, which was soon followed by the most alarming symptons as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, too, was afflicted to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings and self-distrust, and was entirely unfitted for any of the duties of life. From 1855 to the summer of 1863, I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable, I determined to try him, though I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care: in one week I found myself very much improved, and, now, after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself JAMES JOHNSTON.

Subscribed and sworn to before me, this 15th day of January, A. D. 1864.
[L. S.] A. G. RANDALL, Notary Public.

**THIS CELEBRATED INSTITUTE**
has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

**Do not be satisfied with partial cures**
that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. **Seminal Weakness or Spermatorrhœa**

The young man who experiences that growing weakness in his muscular and menta organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one, who looks to him for so much of her happiness, is a victim to his evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands o sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

**Important to Females.**

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by etter or otherwise, FREE. See address below.
